

## Natural ingredients offer nature's goodness.

**Wheat Grass.** Full of essential vitamins, minerals, amino acids, and enzymes, wheat grass revitalizes and energizes your body while providing the highest levels of protection. Wheat grass also offers a concentrated amount of chlorophyll to enhance immunity and support healthy cell metabolism.

**Barley Grass.** Barley grass has been shown to support healthy cholesterol levels already within a normal range. Studies also support the antioxidant activity of barley grass. Its ability to scavenge free radicals is thought to be due to the presence of polyphenolic compounds.

**Lemon Grass.** Lemon grass has been used for centuries by herbalists in Indonesia and Malaysia to support the nervous, digestive, and immune systems. Lemon grass is valued for its exotic citrus fragrance and is an excellent source of nutrients.

**Cruciferous Vegetables.** Kale, watercress, cabbage, and broccoli are part of a family of vegetables called cruciferous vegetables. These vegetables are natural sources of phytonutrients, including indoles, that help protect against cell damage and modulate the body's natural metabolism.

Core Greens is now available in the following options:

### POWDER

#SU74206 | 5.29 OZ | 32 CV | \$39 WHSL/\$50.70 SRP

### CAPSULES

#SU74153 | 60-6 Capsule Packets  
30 CV | \$39 WHSL/\$50.70 SRP

# CORE GREENS

Build Boost Circulate

NET WT 5.29 OZ (150 G)

**SYN-RGY**  
build • boost • circulate

# Building a strong foundation is the most important step you can take for superior long-term health.

The best way to do this is to eat fresh, home-cooked food with five to nine servings of fruits and vegetables a day. But our busy lifestyles pull us in so many directions that meeting our nutritional goals is often difficult. Instead of preparing a balanced meal, we gravitate toward quick and easy processed foods.

Core Greens is the answer to getting the vitamins and minerals you need as well as to building healthy cells, bones, tissue and other systems of the body. The key to Core Greens' effectiveness lies in its incredible combination of natural plant foods, including wheat grass, barley grass, and lemon grass. These grasses provide chlorophyll, which is truly nature's miracle molecule. Chlorophyll helps protect healthy cells, supports immunity, and contributes to general good health.

Not only is Core Greens healthy, it's easy and convenient to take. Because it's so simple to prepare, you'll never again have to worry about whether you're getting the vitamins, minerals, and nutrients you require. Packed with natural goodness, Core Greens will help you build the strong foundation necessary for a long, healthy life.

## Great benefits to keep you healthy

- Provides 13 essential vitamins the body needs to thrive
- Builds health with calcium, phosphorous, iron, zinc, and other minerals
- Phytonutrients deliver powerful health-protective benefits
- Antioxidants combat free radicals and help counter cell damage
- Chlorophyll enhances immunity and protects cells

"Core Greens offers additional fruit and vegetable nutrients to the diet. The cereal grasses are exceptional in providing potent antioxidants, phytonutrients, and flavonoids that are known to protect, nourish, and strengthen the body. Chlorophyll, a key component of Core Greens, helps protect healthy cells and supports immunity. Core Greens is a key product for everyone interested in the maintenance and preservation of their good health."

—Dr. William J. Keller, Synergy Medical Advisory Board
